

Jeremy Coleman

Savant Test

February 15, 2019

I wasn't able to complete the full task, and I am deeply sorry for that.

Giving a run through on how everything is supposed to work. The navigation bar consists of a sign-up link to open up a register window box for new users to sign-up to take part of the discussion board. Once the user is signed in, then they are able to post and reply to other comments. To start a new thread there is a "Start Thread" button that will allow the user to type in a topic and message. Once the message is completed and posted, then the post will be available below where other users are able to reply to the comment. There will also be an edit button and delete button as well. On the side navbar, users are able to look at all post by clicking the post tab, look at all replies that have been part of their post, and look at trending topics.

Again, I am sorry I wasn't able to complete the task by the deadline. I thank you for the opportunity and I look forward to hearing from you soon.
